EDUCATION

B. E., Computer Science & Engineering, Mangalore Institute of Technology and Engineering

Focused on programming principles, web development, data structures, algorithms, database management, IoT, and mathematical foundations essential for computational problem-solving.

SKILLS

Languages

C, Python, HTML

Technologies and Tools

Flask, MySQL, Git

Soft Skills

Communication, Leadership, Teamwork, Public Speaking

Achievements

Secured 3rd place in the SIT Hackathon at Srinivas Institute of Technology.

Achieved 1st place in the national-level Zero Day CTF.

Ranked in the top 10 at the national-level CTF hosted by MIT ADT Pune.

PROJECTS

Task Reminder Web Application A simple app to help users manage their tasks effectively. Users can add, update, and delete tasks with reminders to stay organized. Built using Flask for the backend, it ensures smooth data handling and task management.

Elderly Support Application A user-friendly app designed to assist elderly individuals in managing daily tasks and staying connected. Features include medication reminders, emergency contacts, and easy access to essential information. Built with simplicity and accessibility in mind, the app ensures a seamless experience for elderly users.

Quiz Web App A web application that allows users to participate in quizzes on various topics. Features include customizable quizzes, real-time scoring, and a user-friendly interface. Built using Flask for the backend, it ensures smooth quiz management and data handling.

CERTIFICATES

Google Cybersecurity Specialization by Google

Programming for Everybody (Python) by University of Michigan

Hobbies

- Reading Novels
- Staying updated on International Affairs
- Exploring emerging Technical Trends
